

BIO

Mrs. Elizabeth Glassco, Kindergarten Casa

Mrs Glassco has seven years teaching experience as a Montessori Casa Directress and holds her diplomas as both an ECE (Early Childhood Educator) and Montessori Casa Directress.

A personal note from Mrs. Glassco

I have always been very passionate about teaching children. To watch as a child learns a new skill, and to share in the enthusiasm children have towards life and learning is a wonderful privilege. I believe all children have unique capabilities, and it is the job of the teacher to recognize these skills and continually nurture and guide them at such a precious stage of life. It has been said that children are a mine rich in gems of inestimable value and it is the role of a teacher to help reveal these gems.

I will bring to the classroom both the knowledge that I have acquired through my education and the years of work experience teaching but also the practical experience of been a mother to my 4 wonderful children.

I love Beyond Montessori School because it recognizes that every child is unique and the school strives to meet their individual needs. The school offers a warm and welcoming environment for children, their families and staff. Utilizing the Montessori materials to meet the child's educational needs the school also allows for creative expression through music and arts, all of this provides for a balanced learning experience. I look forward to continuing this rewarding job at Beyond Montessori for many years.
