About the Lead Teacher: Ms. Khairon Adam

My name is Khairon Adam and I am very excited to have joined the Beyond Montessori School teaching team. I am originally from Kenya and I have been in Canada since 2008. I hold a Nursery Foundation Montessori Teaching Diploma (ages 0 to 6 years), as well as an Early Childhood Education Diploma from Niagara College.

I have taught in Ambrosoli International School which is based on the British National Curriculum, The International School of Uganda which is the International Baccalaureate Pedagogy and I have experience at the Honey Tree Montessori School in Kampala, Uganda. In addition, I have had experience in diverse settings through my placements and work experience in Ontario, including extensive experience with Toddlers.

I enjoy teaching all ages of children and find that expression through art a wonderful way of getting to know students. I enjoy inquiry based learning and gearing children's learning through their interests to stimulate further curiosity, enjoyable and active learning within the Montessori Classroom.

I believe that the proper development of skills, knowledge and attitudes are crucial for both a child's academic and personal growth. I also feel that the relevance is linked to children's prior knowledge / experience and current circumstances, and therefore placing learning in a context connected to the lives of the children.

I am keen on soccer and love outdoor adventures. I also work with individuals whom are deaf and blind. I look forward to working with each child in my classroom and getting to know their families.
